 **RAMOPHARMIN**

ABOUT RAMOPHARMIN

A Legacy of Pharmaceutical Excellence

Founded in **1969** and headquartered in Tehran, Ramopharmin Pharmaceutical Co. has established itself as one of Iran's most reputable and enduring pharmaceutical manufacturers. The company's approach is rooted in a dual commitment: maintaining the highest standards of quality across all products, and investing in continuous research and development to drive innovation.

This philosophy ensures the ongoing delivery of medicines that meet rigorous international standards for safety, efficacy, and reliability – serving millions of patients across Iran and global markets.

Pharmaceutical Excellence

Over five decades of manufacturing expertise producing tablets, capsules, syrups, and drops to the highest international quality standards.

Heritage & Trust

Established in 1969, Ramopharmin has built an unbroken track record of reliability, safety, and scientific integrity across every product line.

Tehran, Iran

Headquartered in District 21, Valiasr Blvd, Tehran – our facilities serve domestic and international markets alike.

MANUFACTURING EXPERTISE

Manufacturing Expertise & Capabilities

Ramopharmin specializes in the production of a wide range of pharmaceutical dosage forms – tablets, capsules, syrups, and drops. Our modern manufacturing facilities operate in accordance with Good Manufacturing Practice principles, ensuring every product meets rigorous quality standards.

Ongoing investment in new machinery, advanced laboratory systems, and high-grade infrastructure allows Ramopharmin to efficiently adapt to evolving regulatory requirements and diverse market demands.

DOSAGE FORMS

- Tablets
- Capsules
- Syrups
- Oral Solutions
- Elixirs
- Nasal Drops
- Oral Drops

STANDARDS & COMPLIANCE

- GMP Principles
- WHO Guidelines
- ISO Standards
- MOH Iran

CORE CAPABILITIES

Advanced Laboratory

State-of-the-art analytical labs for quality control, stability testing, and formulation R&D.

Modern Infrastructure

High-grade production infrastructure continuously upgraded to meet global regulatory evolution.

Quality Assurance

Comprehensive QA systems – from raw-material intake through final release – ensuring consistent product safety.

Flexible Capacity

Scalable production capacity designed for both domestic supply and international export volumes.

RESEARCH, INNOVATION & QUALITY

Advancing Science, Assuring Quality

At the core of Ramopharmin's operations is a robust research and development program. The company is dedicated to continuous product and process improvement, actively integrating the latest advancements in pharmaceutical science and technology.

Initiatives in artificial intelligence and digitalization further enhance manufacturing efficiency, product quality, and regulatory compliance, while Ramopharmin continues to invest in the professional growth of its scientific and technical teams, cultivating the next generation of pharmaceutical leaders.

PILLARS OF INNOVATION

R&D Investment

Continuous investment in research facilities and scientific talent to develop next-generation formulations.

Rigorous Testing

Every product undergoes stringent analytical validation to ensure safety, potency, and batch-to-batch consistency.

AI & Digitalization

Smart manufacturing technologies improving process consistency and enabling real-time quality monitoring.

Talent Development

Structured programs nurturing scientific expertise and professional growth within our technical teams.

INNOVATION AT RAMOPHARMIN

Science-led. Quality-assured. Future-ready.

Continuous R&D and digital manufacturing keep our medicines aligned with evolving global standards.

INTERNATIONAL OUTLOOK

A Global Vision

Ramopharmin's vision extends beyond Iran's borders, with a clear strategic emphasis on expanding its presence in international markets. The company has established partnerships and a collaborative network throughout the Middle East and Eurasia, ensuring the alignment of its products and processes with global requirements – recognized for its flexible production capacity and ability to deliver tailored solutions to partners worldwide.

- Middle East
- Eurasia
- CIS Countries
- Africa
- Asia-Pacific

Ethical Commitment & Sustainability

Ramopharmin operates with a strong sense of ethical responsibility, viewing the production of high-quality medicines as both a professional and moral obligation. Its commitment to transparency, safety, and social responsibility is reflected across all aspects of its operations.

Transparency

Open and honest reporting across all operations.

Safety First

Unwavering commitment to patient and product safety.

Sustainability

Environmentally conscious manufacturing practices.

Partnership & Collaboration

Ramopharmin actively seeks strategic alliances with international distributors, healthcare institutions, and research organizations. Our flexible manufacturing model, regulatory track record, and broad therapeutic portfolio make us a reliable long-term partner for companies seeking quality-assured pharmaceutical supply from one of Iran's most established producers.

Contract Manufacturing

Flexible CDMO services for regional and international clients requiring reliable, quality-assured production capacity.

Export & Distribution

Established export channels across the Middle East, Eurasia, CIS, and Africa with a dedicated international business team.

PRODUCT PORTFOLIO

A Broad & Evolving Portfolio

Ramopharmin maintains a broad and continually evolving portfolio of high-quality pharmaceutical products, developed and manufactured in accordance with the highest international standards. From essential generics to innovative formulations, every product reflects decades of expertise and an enduring commitment to improving health and wellbeing.
